

English Reading Teacher

YueCheng Education

The purpose of YueCheng Education (YCE) is to provide a future-oriented education for the children of Chinese and expatriate families living in Beijing. Founded on a passion to challenge and empower young people to live fulfilling and productive lives, YCE opened Beijing City International School (www.bcis.cn) in 2005. With the support of the YueCheng Educational Research Institute (YERI), this innovative school has provided the bedrock for YCE to extend its not-for-profit services to a wider community. The Learning Frontier (www.learningfrontier.cn) provides specialist support for children with learning and developmental needs, and the Reading Frontier (www.readingfrontier.com) inspires in children a passion for reading for life. The Courtyard Kindergarten (www.yuechengkg.com) has open its doors in October 2019, and two further schools will be opened within the next three years. The strength of YCE lies in the quality of its international and Chinese staff, and the mutual support extended between the different but complementary institutions. YueCheng Education is an equal opportunity employer.

Reading Frontier

An international education brand owned by Yuecheng Education. It is a professional organization that promotes reading skills as a means of supporting students 4-12 as they become inquirers of the world around them. We offer the afterschool experience featuring in a personalized and explorative curriculum from the advanced international education philosophy. Our goal is that, through engagement in reading, students will achieve a deeper understanding of themselves, their interests and the world around them.

We adopted inquiry-based learning: Using a variety of reading materials, we teach students how to become inquirers. We want them to break through the boundaries of standard answers and seek to satisfy their own curiosity. To achieve the goal of helping students know the world and understand themselves, we have designed six theme related reading experiences (See the World, Travel through Time and Space, Understand Society, Explore Science and Technology, Enjoy Life and Know Yourself), which will stimulate students' personal interests in exploring the world. Our reading course helps students develop reading strategy skills, thinking skills and linguistic skills through various reading and inquiry activities.

Through rigorous recruitment process, RF ensure every teacher has excellent teaching and language skills, and receives professional teaching training from YueCheng Education Group. The carefully designed learning and reading environment, and the carefully selected books for the library from renowned publishers around the world, provide students enriched and engaging reading experience.
